Operator Connect Express

Operator Connect for any service provider.

What it does

Operator Connect Express is for providers who want to become Operator Connect carriers quickly. It works with your DIDs/DDIs and existing carrier relationships, and gives you the streamlined provisioning of Operator Connect.

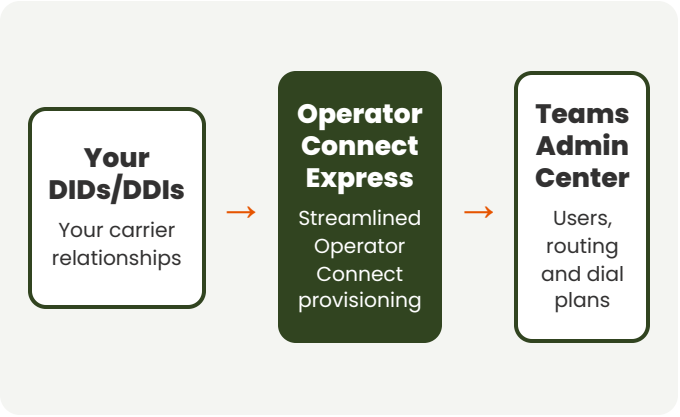

Key features

- **Your numbers in Teams**
  Assign numbers to Operator Connect organizations on the fly.
- **Set up in hours**
  Only basic SIP trunk interop is needed, with no lengthy certification process.
- **Bulk upload or API**
  Upload phone numbers in bulk, or provision them by API.
- **Managed in Teams Admin Center**
  User assignment, number routing, dial plans and policies.
- **No Global Administrator role**
  Your customers don't need to grant it.
- **Built for flexibility**
  Mix Operator Connect Express, SIP Trunk Connector and PBX Connector in one Microsoft tenant.

For partners

- Become an Operator Connect carrier quickly.
- Keep your numbers and carrier relationships.
- Streamlined Operator Connect provisioning for your customers.

How it works

1. **Set up your environment**
   Connect with basic SIP trunk interop.
2. **Add your numbers**
   Upload DIDs/DDIs in bulk, or by API.
3. **Assign in Teams**
   Numbers go to Operator Connect organizations and users in Teams Admin Center.

Requirements and licensing

- Basic SIP trunk interop with TeamMate.
- Your own DIDs/DDIs.
- No Global Administrator role required in your customer's tenant.
- Users need Microsoft Teams and Microsoft Phone System (Teams Phone) licenses.
